SUMMARY

Computer Science Engineering student proficient in C++, Java, and Python, with hands-on project experience across the MERN stack and AI-powered applications. Comfortable working full-stack, from REST APIs to responsive front-ends, and actively seeking internship or entry-level opportunities to grow as a software professional.

EDUCATION

JECRC University, Jaipur <i>Bachelor of Technology in Computer Science Engineering — CGPA: 7.33</i>	2023 – 2027
Maheshwari Public School, Pratap Nagar, Jaipur <i>Senior Secondary (CBSE) — First Division</i>	2022
Maheshwari Public School, Pratap Nagar, Jaipur <i>Secondary (CBSE) — First Division</i>	2020

PROJECTS

ExamBuilder – AI-Powered Multi-Agent Assessment Platform May 2026
Next.js, TypeScript, React, Node.js, Prisma ORM, SQLite, LangGraph, LangChain, Grok API (Llama 3.3), Framer Motion, jsPDF

- Educators spend significant time manually creating and validating high-quality assessments.
- Automate exam generation while giving educators full oversight and control.
- Built a multi-agent AI platform using LangGraph and LangChain to generate conceptual, coding, and mathematical questions, backed by a Human-in-the-Loop review dashboard, role-based access for educators, and one-click PDF export for question papers and answer keys.
- Streamlined assessment creation with accurate, instructor-approved output ready for distribution.

ProjectHub April 2026
React.js, Node.js, Express.js, MongoDB

- Cross-functional teams lacked a centralized way to manage projects, tasks, and budgets securely.
- Build a secure, full-stack project management platform with reliable performance.
- Implemented role-based authentication with JWT and bcrypt, added task assignment, progress tracking, and budget monitoring, and optimized queries with MongoDB and REST APIs.
- Delivered interactive dashboards with faster, more reliable data retrieval for cross-functional teams.

SKILLS

Languages: C++, JavaScript, Python, Java

Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), Next.js, HTML, CSS

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, REST API Design

Machine Learning: Supervised & Unsupervised Learning, Model Evaluation

Libraries: NumPy, Pandas, Scikit-Learn

Tools & Platforms: Git, GitHub, VS Code, Postman, Prisma ORM, SQLite, MongoDB

Soft Skills: Problem-Solving, Team Collaboration, Time Management, Adaptability

CERTIFICATIONS

Modern Web Developer Certificate July 2025 – Jan 2026

- Covers HTML, CSS, JavaScript, MongoDB, React.js, Node.js, and Express.js.
- Completed multiple technical assessments covering front-end development, responsive design, database concepts, and application development best practices.
- Validated ability to build and maintain modern, scalable web applications.

HOBBIES / INTERESTS

- Watching movies and series
- Playing football
